## Design by Foersom & Hiort-Lorenzen

Johannes Foersom and Peter Hiort-Lorenzen (MDD) are two of Scandinavia's most renowned and successful furniture designers.

For some years now they have been designing beautiful yet simple furniture for Cane-line in accordance with our philosophy – Life made comfortable.

After a successful introduction of collection 2007-news: Trinity three-legged chair, Kingston sunchair, Kingston dining chair (all stackable) and matching tables, we this year present the beautiful curved Savannah sofa group – a modular sofa system with a beautiful design and great comfort.

### WEAVE:

All products in the collection are woven with the unique Hularo® fibres. These fibres are maintenance-free, we recommend you just clean the products with ordinary household detergents.

### GLASS:

Glass table tops – in 8 mm hardened glass – can be used on top of the woven surfaces.

### TEAK:

Teak table tops are supplied untreated, and over time will develop a patina. If you wish to treat the teak table tops, we recommend you use teak oil – this will naturally make the wood darker!

### EASY:

Easy table tops are made from a fibre-glass and polyester composite. The table top is particularly maintenance-free and requires only ordinary cleaning.

### SLATE:

The slate tops are made with natural slate pieces, which must be treated with a conditioning oil before use to make it more resistant to dirt, wind and weather. Slate tops are not frost proof and need to be protected from the frost and low temperatures. The tops must be stored indoors during the winter.

### GRANITE:

The granite table top is made of natural granite, polished until it is smooth and shiny. Granite is a natural material, so you must expect small depressions in the polished surface and small colour variations between table tops. Granite is hard-wearing and requires a minimum of maintenance – clean with ordinary household detergents.

To preserve your furniture in good condition and allow it maximum useful life, Cane-line recommends you bring the furniture in for the winter.

# Table bases

## Dining tables with rectangular / oval tops

- Mocca
- Natural

Stamford 50160B/50160U

Lansing 5056LB/5056LU

🇬🇧 Cushions for Cane-line Outdoor made of Bayer Dralon fabrics can be handwashed at maximum 30° C and may not be machine-washed. If the cushions are washed at higher temperatures, the fibre reacts by shrinking. We recommend washing the smaller seat cushions (complete with foam inner pad) in a bowl, and then allowing them to dry standing vertically. Foam rinse as used for car seats is recommended for the bigger cushions – please follow the maker's instructions. But make sure that the detergent is suitable for the type of fabric. Covers should not be taken off any of the cushions when washing them! (The zip is only for use during production!).

Washing

Drying

🇬🇧 Cane-line products are handwickered with the unique Hularo® fibres made of dyed hardwearing polyethylene material. Hularo® is produced in Europe and has unsurpassed qualities. The entire Cane-line collection is dirt repelling, very strong and outmost environment-friendly, as it is toxin-free, biodegradable and recyclable. The Cane-line collection stands the seasonal changes unlike traditional cane furniture: pouring rain and beating sun. The collection is UV, colour, water and frost resistant and requires no maintenance. To keep the furniture in good condition, we recommend keeping the furniture indoors during the winter. The furniture can be cleaned with ordinary cleaning materials.

DESIGNED AND  
CONCEPTUALIZED IN DENMARK  
HANDMADE IN INDONESIA

The Cane-line collection is manufactured on the island of Java, Indonesia, by skilled craftspeople dedicated to delivering unique pieces of furniture. Each piece must undergo a long process, from when our designers in Denmark conceive and develop the design till when these talented weavers produce the final item with precision and care. And every step of the way, we evaluate the quality to ensure it lives up to our motto: Life made comfortable.
