

*“Nature is by and large to be found out of doors,
a location where, it cannot be argued,
there are never enough comfortable chairs.”*

Fran Lebowitz

Commercial

Casualife Furniture has always had a focus on their customer's contract fit-outs. Commercial standard product used for resorts, clubs and restaurants has the advantage that it is built to exacting specifications and the components and processes used are industry best. As commercial installations are also normally price conscious, the residential user of the same products will know they are getting a durable and serviceable product. But unlike most international brands of upmarket outdoor furniture, in the Casualife models we use carefully specified raw materials and manufacturing processes, yet provide best 'value for money' prices.

Custom design is also possible. If you cannot find the colours or designs you are looking for, or would like to modify our catalogued items, Casualife can also produce custom designs for your project where quantity and timing allow. We have access to a wide range of fibre colours & textures, fabrics, and furniture materials (aluminium, teak, stainless steel, synthetic 'wicker' fibres, fabrics, tabletops and components). Talk to us about high quality yet affordable production of your designs, or variations to ours, on your next project.

To have supplied over 350 resort hotel projects worldwide with a variety of furniture and umbrella styles and materials, located in areas as distant as Pacific, Middle East, Australia, Asia, Europe & Africa, means we have a wealth of experience in the most demanding of climates which is unsurpassable...

A proud history of commercial quality excellence, with a new focus on accessible price & design, Casualife is proud to introduce it's new international collection of woven synthetic fibre outdoor/indoor furniture. Already in use in some of the world's most prestigious projects, we now offer a catalogued line for residential or smaller contract fitouts.

The Casualife woven collection adds to our existing outdoor furniture collections in; Aluminium, Teak wood, Stainless Steel, other woven collections, and specialist Umbrellas and Gazebos.

Casualife Furniture has almost 3 decades of experience in design and manufacture of superior outdoor furniture, and all that experience in making furniture allows us to create fresh design directions. Always practical and durable, our outdoor furniture also gives you the ergonomic design you expect. Recyclable materials such as the fibre and aluminium frames are all part of our sustainable approach, though the most environmentally responsible element in any furniture are products that give the greatest years of service.

Using the Rehau (German) polyethylene fibres with stringent testing and up to 5 year fibre warranty, we train and utilise weave design experts to carefully craft the furniture. Fibre is woven onto sturdy aluminium frames, and then protected from wear and tear with stainless leg caps and long wearing glides. Sunbrella (USA) fabrics and quick-dry foam for cushions makes the quality complete.

All these & a great many more features, along with our access to a wide range of fibre & fabric colours & textures, allow also for customisation of design to your project furniture, or entirely your own design.

No matter where in the world you are, ask your nearest Casualife office how we can help you solve your next outdoor furniture design requirements!
